

## Programs and Services

**Our purpose is to change the way the world defines and views disabilities by making profound, positive differences in people's lives every day.**

**Adult Services:** Easterseals is dedicated to improving the quality of life for all people. Programming is based on all areas including communication, recreation, social, independent living and employment skills and opportunities through [HarryButtons.com](http://HarryButtons.com).

**Autism Services & Diagnostic Clinics:** Autism is a complex developmental disability that typically appears during the first three years of life. By viewing each child as an individual, our highly specialized teams work in collaboration with families to determine which components of therapy and services are needed. We offer all resources from screening and diagnostics, training and consultations to therapy services.

**Children Services:** We offer early screenings and therapy services for children birth to age five, to keep on track of developmental milestones and be school ready. We also provide full-time and part-time, year-round child care to children of all abilities in a nurturing environment where they learn and grow together.

**Community-Based Programs:** As a complement to our comprehensive therapy services, we've developed unique community-based programs that target specific goals in highly motivating settings. Programs focus on social skills, sports, the arts and play.

**Evaluations:** Evaluations by the Easterseals team are available for children of all ages. Many are referred by a physician due to a parent's concerns or developmental delay.

**Family Education & Support:** We strive to strengthen the child and the whole family. Our family-centered philosophy offers the support and networking they need to thrive. Includes Foster-Adoptive Services, Sibling Groups and Parent Support Groups

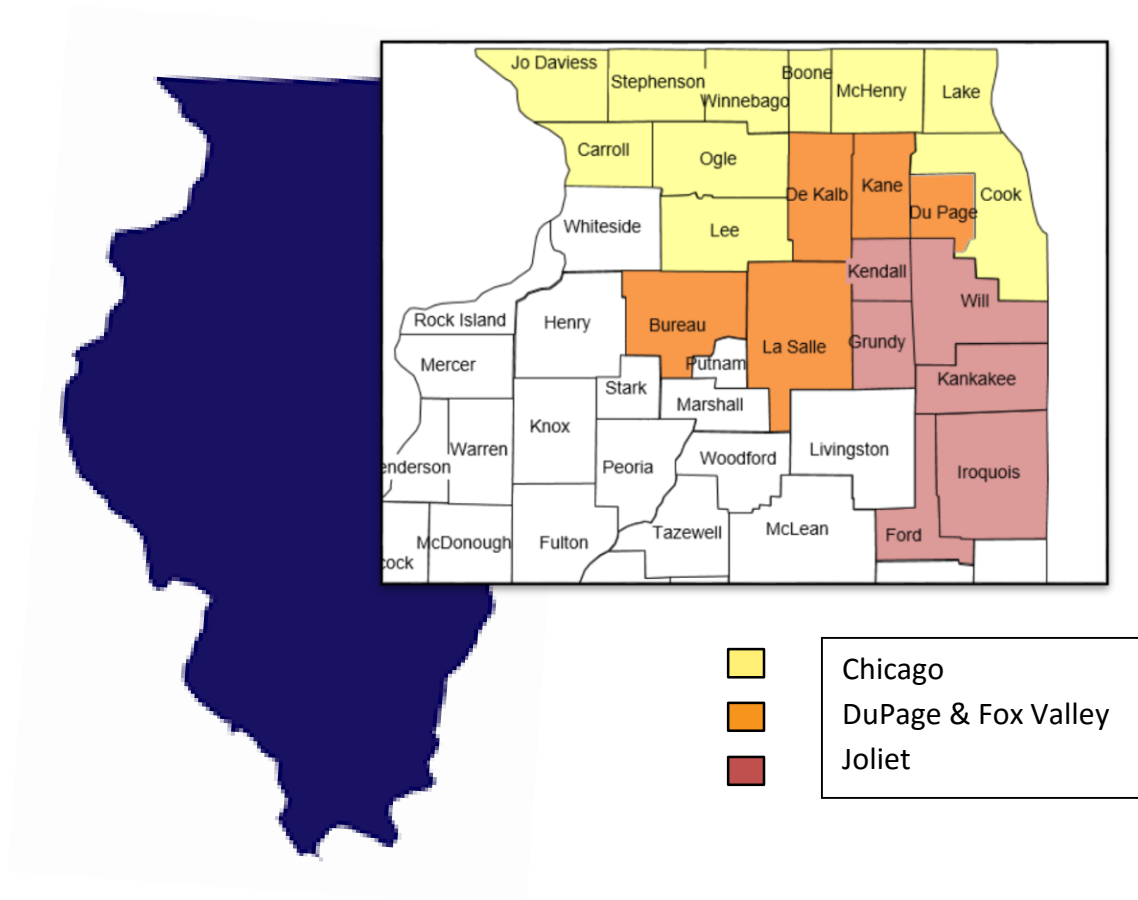

**Medical Rehabilitation Services:** Easter Seals is dedicated to providing services for infants, children and adults with disabilities or delays and providing the highest quality care designed to meet their individual needs. Teams of therapists, teachers and other health professionals help each person overcome obstacles to reach his or her personal goals. Programs include: Aquatic Therapy, Assistive Technology, Audiology, Occupational Therapy, Developmental Therapy, Physical Therapy, Speech Therapy/Language Therapy and more.

**School-Based Therapy:** Empowers each student to achieve peak academic performance, increase social and vocational skills, develop an effective means of communication and foster the acquisition of functional life skills for independence in the community.

## Territory Map

Serving 40,000 infants, children and adults annually in programs across Chicagoland, Joliet, Rockford and Northwest Indiana in 16 locations and proudly employing over 1,000 dedicated professionals.
