In the midst of all of this uncertainty with the Coronavirus, we hope that you and the people you care about are doing well. This pandemic has reminded us all that no matter how prepared we are, things can change in the blink of an eye.

At Easterseals, we are experiencing our own unexpected changes. In accordance with state mandates, our Day Center that provides care for senior citizens has temporarily closed and our work to transition people from nursing homes into the community has been altered. Our Speech and Language services, both in our offices and in the community, have been indefinitely suspended. In addition, we have had to cancel several fundraising events.

As we operate on a very slim margin, this loss in revenue presents an immediate challenge for us. **Now more than ever, we need your support to ensure that these important programs will be available to local families in need. Please consider supporting Easterseals Northern Ohio at this critical time by making a donation.**

Despite these changes and challenging times, one thing won't change: our mission to help children and adults with special needs live, learn, work and play in our community. For 100 years, we have provided the community with consistent and compassionate care. By working together, we will ensure a bright future for people with disabilities.

Sincerely,

Beverly Richards
CEO/President
